

External Transfer

Set up a payment or deposit account transfer to your own account at a different bank.

- 1) **External Bank Account Setup:** From the main menu bar, click "External Transfer". The first step will be adding your external bank account(s).

- Click "Add Account"

- Enter your external bank account information. Once you review and submit the account information, you will receive a confirmation screen within the app and a confirmation email from Horicon Bank.

Add Account

Routing Number

3 BMO Checking

Back Submit

External account pending. Please validate within the next 3-5 days.

Please verify your ownership of this external account in order to activate it for transfers. We will send three small transactions, two deposits and one withdrawal. Please follow these steps to complete your account verification:

Step 1:
Review your external account for the trial transactions within 3-5 business days.

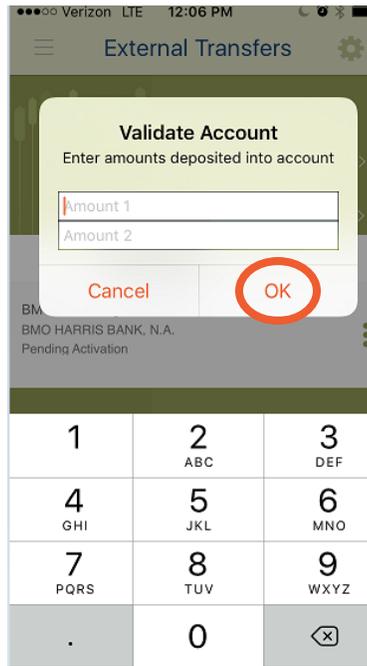

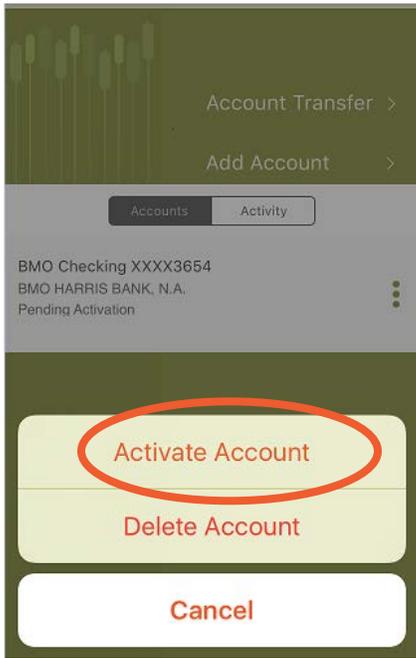

Step 2:
Review and take note of the deposit transaction amounts.

Step 3:
You will receive an email when your account is ready to be verified. The account status will change from 'in process' to 'pending activation.' Click on the account and enter the deposit transaction amounts. Once entered correctly, the account will be verified and available for transfers.

Close

The image shows two screenshots of the 'Add Account' process. The left screenshot is the 'Add Account' form with fields for Routing Number, Account Number, Account Type, Name on Account, and Nickname. The 'Submit' button is circled in red. The right screenshot is the confirmation screen with a green checkmark and instructions for account verification, including three steps: reviewing transactions, noting deposit amounts, and receiving an email. The 'Close' button is at the bottom.

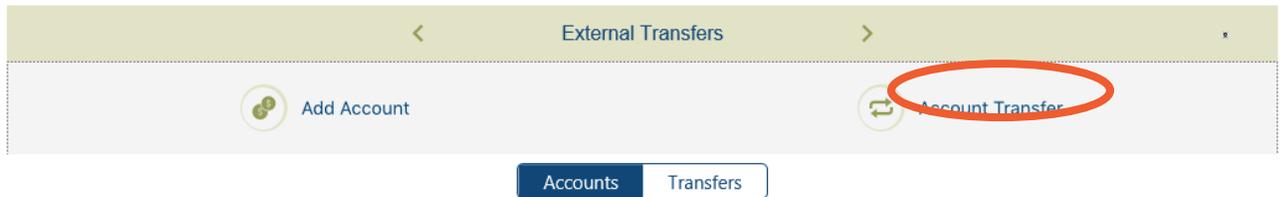

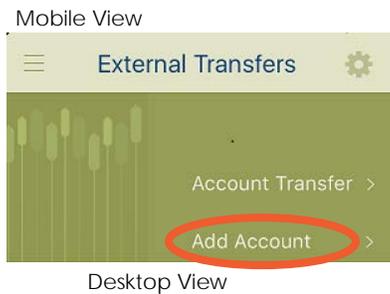

- Two test transactions will post in your external bank account. Login to the Horicon Bank app and verify the transactions by clicking "External Transfers" on the main menu bar. Click on the three vertical dots by your external bank account and click "Activate Account".

- When both transactions have been successfully validated, the external bank account setup will be completed and transfers can be made to or from that account.

2) **External Bank Account Transfer:** From the main menu bar, click "External Transfer".

- Click "Account Transfer"

- Fill in all required information and click "Submit". Review the entered information and confirm.
